June 10, 2021

Dear Mayor Donchez and Mr. Fernstrom,

Congratulations on the Sustainability Driven Initiatives and Partnerships between the City of Bethlehem and the Bethlehem Parking Authority! We applaud the additional electric vehicle charging stations and the Sustainable Design Standard passed by the BPA for all new parking structures. Equally exciting is the addition of an electric vehicle to BPA's fleet, with plans for more in 2022.

These actions support the goals and strategies in the Climate Action Plan and demonstrate the City's and the Parking Authority's commitment to reduce our carbon footprint and increase our sustainability.

Sincerely,

*Lynn Rothman*
